
Acquisition of Greenchip Recycling

I am pleased to announce the acquisition of Greenchip Recycling (Greenchip) which will take effect from 1 December 2008.

Greenchip operates a licensed waste management facility located in Wodonga, Victoria.

The facility is licensed to treat a broad range of industrial and biological liquid wastes. The facility also manufactures compost by recycling green waste and other biological liquid wastes.

Greenchip has been in operation since 1996 and are the largest waste management facility in the region. The acquisition significantly complements Barry Bros. services in the region and provides Tox Free with expertise in the management of organic wastes and compost manufacture.

Mr Glen Nichols, the Director of Greenchip, will continue employment with Tox Free.

Glen has significant experience in organic waste management and will assist Tox Free in expanding organic waste treatment facilities within the rest of the group.

Steve Gostlow
Managing Director
6 November 2008

About Tox Free Solutions Ltd (ASX code: TOX)

Tox Free Solutions Ltd (Tox Free) is one of the largest integrated industrial services, waste and environmental management businesses in Australia.
